

*American manufacturer of high quality cast acrylic rods and tubes since 1954*

---

January 3, 2024

The following information is provided in response to your inquiry regarding the compliance of cast acrylic products manufactured by US Cast, Inc. with respect to the REACH Substances of Very High Concern (SVHC) list.

Our cast acrylic is manufactured using Methyl Methacrylate Monomer M503. The supplier for this monomer has indicated that they do not deliberately add any of the substances currently listed on the ECHA list to their monomer, nor are any of those substances present above the applicable threshold of 0.1%.

Products manufactured by US Cast, Inc., meet the requirements for SVHC, as the presence of SVHC's is not greater than 0.1%. REACH Regulation compliance has been assessed for these articles. There are no obligations under the REACH Regulation for these articles.

This information can be used for compliance with the REACH Regulation without any formal guarantee as the products are not analyzed on a regular basis. However, based on our experience and knowledge, the REACH requirements are fulfilled.

If you have any further questions about products manufactured by US Cast, Inc., please do not hesitate to contact me.
